E-INTERNATIONAL RELATIONS, MAR 7 2022

E-International Relations has been a forum for academic debate and discussion on the ongoing conflict between Russia and Ukraine since our website was founded in 2008. A major part of that focus has been a series of edited collections and monographs (eight books in total) that dig into the roots and branches of the conflict. Each book can be accessed here. All these books are free to read online, and free to download. You can also find much more content on our website archive on Ukraine, featuring hundreds of articles written by academics and practitioners. If you would like to support us and help us fund more in depth coverage of this and other important issues, we welcome donations.
